## Iroda® Professional 125W Gas Soldering Iron

T 2600 Iron

T 2601 Kit

The **T 2600** eliminates the need for extension leads every time you want to solder something away from your work bench. The iron has a 125W heating capacity and features a simple slide up piezo ignition and convenient thumb wheel for temperature control. The 38ml gas chamber can provide up to 4 hours operation, and is refilled using a standard butane gas refill canister. An absolute MUST for installers, mobile techs, on-site service personnel, etc. Adjustable temperature from 250 to 550°C. Includes 1.6mm conical tip (T 2602).

The **T 2601** gas iron kit comprises the **T 2600** gas soldering iron supplied in a handy carry case with a range of tips and accessories including safety stand, cleaning sponge, solder dispenser, blow torch, hot air blower and hot knife cutter.

"This has all the convenience features of a normal gas iron, such as quick heating, no power cords, light weight and best of all, it comes with a blow torch tip."
