

Iroda® 125W Gas Cartridge Soldering Iron

All the heat of our popular T 2600 iron with the convenience of Iroda's latest cartridge powered design.

The **T 2630** is a professional grade soldering iron/blowtorch and multi-function heat tool with single click piezo ignition. Powered by a removable/refillable Liquid Energy Cell (LEC) 20ml gas reservoir for up to 2 hours use per cell. The T 2630 boasts an equivalent power range of 30 to 125 Watts as an iron, and as a blowtorch produces a 1300°C flame. It features an inbuilt safety stand ensuring you can work with minimal risk anywhere, anytime. Supplied with two LEC butane cartridges and a 1.6mm conical tip (T 2602).

The **T 2631** kit comprises of the **T 2630** Gas Iron, replacement gas filter, solder reel (17gm), sponge, heat deflector, heat blower, 3.2mm chisel tip and 2 x LEC 20ml cartridges. All supplied in a handy carry case.

Iroda® Professional 125W Gas Soldering Iron

The **T 2600** eliminates the need for extension leads every time you want to solder something away from your work bench. The iron has a 125W heating capacity and features a simple slide up piezo ignition and convenient thumb wheel for temperature control. The 38ml gas chamber can provide up to 4 hours operation, and is refilled using a standard butane gas refill canister. An absolute MUST for installers, mobile techs, on-site service personnel, etc. Adjustable temperature from 250 to 550°C. Includes 1.6mm conical tip (T 2602).

The **T 2601** gas iron kit comprises the **T 2600** gas soldering iron supplied in a handy carry case with a range of tips and accessories including safety stand, cleaning sponge, solder dispenser, blow torch, hot air blower and hot knife cutter.

"This has all the convenience features of a normal gas iron, such as quick heating, no power cords, light weight and best of all, it comes with a blow torch tip."

Don't forget the gas!

Iroda® Butane Gas Refill

Aerosol can of high quality butane suitable for gas powered soldering irons. 250ml net.

We recommend the use of high quality Iroda® butane gas for use in all Iroda® gas powered products. Inferior or lower grade butane may contain a higher level of impurities which will block the internal microscopic filters faster causing intermittent or complete failure.

Must travel by road, regulations prohibit transport by air freight.
